CE956: Statistical Learning
Department of Computer Engineering
Sharif University of Technology
Spring 2019: Room CE204, Sat. & Mon.: 13:30-15:00

Quiz 02 (20 Points) – (March-02-2019)

Gaussian Process: (10 points each)

1. Can object recognition be solved by a Gaussian Process (GP) Regression?
2. Given an overdetermined system of equations ($y = mx+c$) (i.e. 3 equations 2 unknowns), can we solve this system with GP?
